---

Don't miss the greatest drama on earth.

*"I'm watching history write itself, and it's the most thrilling, exhilarating, troubling, terrifying evocative meta-story that's ever been written. And it's happening right here, right now. In real time.*

we're on the edge of mass extinction - but don't dare do anything differently.  
This video was published on Published on Jul 15, 2013 but it's still stunningly accurate.
